Physical Form:

Liquid

Product Type:

Any acceptable, except mercury compounds, formaldehyde, or peroxides

Composition Percentage By Weight:

Any acceptable

Test Organism Type:

Micrococcus pyogenes var. Aureus and salmonella schottmuelleri and trichophyton interdigitale

Dilution By Volume For Testing:

Dilution by volume for testing 1.530 min. And 21.100 max

Test Time Limit:

10.0 minutes

Test Temp:

20.0 degrees celsius

Special Features:

Concentrated; suitable for cold disinfection of surgical instruments

Specification Or Standard:

L type

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T090-b
