**Physical Form:**

Liquid

**Composition Percentage By Weight:**

31 pct acetic acid; 15.2 pct peracetic acid; 11.2 pct hydrogen peroxide

**Special Features:**

Flash point 96.111 degrees c (closed cup); boiling/condensation less than 100 degrees c; easily soluble in cold water, hot water; specific gravi type 1.114 (water=1; )used on food to sanitize it

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T090-b
