Product Name:

Sanitizer, sink

Special Features:

Boiling point: 212.00 deg. F.; ph: 12.50; solubility: complete; specific gravity: 1.00; percent volatile by weight: >90%; evaporation rate: 1; color: clear; physical state: liquid; odor: alcohol; stable; do not mix with any other chemicals; may cause toxic vapors/gas when burned; polymerization will not occur;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T090-b
