Dispersing Method:

Spray bottle

Hand Spray Gun Dispenser:

Not included

Product Name:

Deodorizer

Special Features:

Boiling point: 212.00 deg. F.; specific gravity: 1.00; ph: 6.0 to 8.0; percent volatile by weight: >75%; solubility: complete; evaporation rate: >1.00; color: clear; physical state: liquid; odor: clean/fresh odor; stable; do not mix with any other chemicals; may cause toxic vapors/gas when burned; polymerization will not occur;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T090-a
