Product Name:

Purogene biocide

Special Features:

Color: clear pale yellow; physical state: liquid; composition: sodium chlorite solution: 3.35%, water: 95.65%; odor: chlorine; ph: 8.0-8.5; melting point: 23.00 deg. F.; boiling point: 213.00 deg. F.; evaporation rate: comparable to water; vapor pressure: 23.70 mm hg; vapor density: 0.02 kg/m³; miscible in water; viscosity: 0.6409 mm²/sec; avoid heat, flames and sparks; used on potable water storage tanks;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T090-b
