**Product Name:**

Purogene biocide

**Special Features:**

Color: clear pale yellow; physical state: liquid; composition: sodium chlorite solution: 3.35%, water: 95.65%; odor: chlorine; ph: 8.0-8.5; melting point: 23.00 deg. F.; boiling point: 213.00 deg. F.; evaporation rate: comparable to water; vapor pressure: 23.70 mm hg; vapor density: 0.02 kg/m<sup>3</sup>; miscible in water; viscosity: 0.6409 mm<sup>2</sup>/sec; avoid heat, flames and sparks; used on potable water storage tanks;

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T090-b
