Physical Form:

Liquid

Quantity Within Each Unit Package:

5.0 gallons

Design Type:

Permanent

Composition And Percentage:

87.6 by volume glycol and 7.6 by volume ethylene glycol and 5.0 by volume glycol and 4.5 by volume water and 5.5 by volume water and 3.8 by volume borax and 4.2 by volume borax

Boiling Point Temperature Rating:

300.0 degrees fahrenheit

Flammability Characteristic:

Nonflammable

Arctic Graded Feature:

Not included

Freeze Protection Maximum Temperature Rating:

60.0 degrees fahrenheit minus

Color:

Blue green

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T089-b
