Material Base Type:

Solution

Biodegradable Characteristic:

Included

Product Name:

Micro blaze emergency liquid spill control

Special Features:

Is a bio-chemical formulation of biological activators and selected microbes; microbes are in spore form; liquid spill control; is concentrated and is mixed with water; can be used for highway hydrocarbon spills (gasoline, diesel, oil, etc); eliminates fire hazard; hydrocarbon fires on ground, field fires, wells, water extinguishes fire on contact, elimates flashback

Supplementary Features:

White, opaque perfumed liquid formulation. Ph 7.3, bacteria count 400 billion per gallon. Boiling point 100'c. To maintain shelf life avoid tempertures under 32'f or over 120'f for extended time. Microbes are viable up to 180'f.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T089-a
