Product Name:
Belgard evn antiscalant for seawater distillation plants
Level Of Dermal Irritation Potential:
Slight
Special Features:
Antiscalant for seawater evaporators
Color:
Red
Supplementary Features:
Clar or slighly hazy amber liquid w/ slight odor. Freezing point 0 to -10 degree c, boiling point 100-102 degree c, stable up to 300 degree c
Suitable for use in multi-stage flash plants. A neutralised aqueous solution of a polycarboxylic acid. Ph 8-9
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
