Physical Form:

Liquid

Quantity Within Each Unit Package:

5.0 gallons

Design Type:

Permanent

Arctic Graded Feature:

Not included

Special Features:

Multi engine type antifreeze; type i; glycol base is ethylene glycol; glycol level concentrated (100%); use in administrative vehicles, construction vehicles and equipment, military ground combat and tactical/equipment vehicles

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T089-b
