Physical Form:

Liquid

Quantity Within Each Unit Package:

5.0 liters

Active Ingredient:

1, 2-ethanediol

Special Features:

Contains additives that protect aluminum and aluminum alloys; retains corrosion inhibiting and anti-freeze properties even in strongly acidic water; suitable for winter engine protection; 50/50 mix to provide adequate corrosion protection; 1, 2-ethanediol, cas no. 107-21-1, concentration percent 60 to 100, classification-health xn r22 (harmful if swallowed); low toxicity to aquatic organisms and is readily biodegradable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T089-b
