Silicone Compound - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6850-01-527-0476

Basic Ingredient:
Silicone
Product Name:
Rtv silicone coating/marking ink series
Special Features:
One-part flowable silicone elastomer dispersions; cures at room temperature when exposed to atmosperic moisture; non-corrive cure
systems; use and inert gas like argon or nitrogen to blanket the product before securely reclosing the container; tensile strength 300;
elongation percentage 200; operating temperature neg 65 to pos 240 degc; flow viscosi type 1.2 k; packaging one pint one gallon; warran
type 6 months
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T089-a
