Product Name:

Cee-bee a-477 additive o

Level Of Dermal Irritation Potential:

Slight

Special Features:

Appearance: pale liquid; insoluble in water; odor: slight; specific gravity: 0.88; evaporation rate: < butyl acetate; voc: 240 grams / liter; flash point: 410.00 deg. F.; test method: cleveland open cup; hazardous polymerization will not occur; avoid strong oxidizers; hazardous decomposition products: oxides of carbon; 55 gallon drum. Non phenolic, alkaline, chemical remover compound additive;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
