**End Application:**

1945-01-473-2282

**Quantity Within Each Unit Package:**

32.00 fluid ounces

**Product Name:**

Fuel stabilizer 2+4 fuel conditioner

**Level Of Dermal Irritation Potential:**

Slight

**Special Features:**

Flash point: 165.00 deg. F.; flammable limits: lower limits: 0.80 / upper limits: 7.00; appearance: amber color; state: liquid; odor: solvent odor; percent solvent: 60.00%; vapor density: lt 1.0; % volatile/volume: 100.00%; boiling point: gt 200.00 deg. F.; solubility in water: negligible; specific gravity: 0.83; avoid high heat or open flame; incompatible with strong oxidizing agents; hazardous polymerization will not occur;

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T089-a
