**Product Name:**

Putty, replication, silicone compound

**Special Features:**

Color: white/gray putty; odor: slight; freezing point: 194.00 deg. F. Closed cup; specific gravity: 1.25; boiling point: >90.00 deg. C.; insoluble in water; hazardous polymerization will not occur; incompatible with acids, bases and oxidizing agents;

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T089-a
