Product Name:

Putty, replication, silicone compound

Special Features:

Color: white/gray putty; odor: slight; freezing point: 194.00 deg. F. Closed cup; specific gravity: 1.25; boiling point: >90.00 deg. C.; insoluble in water; hazardous polymerization will not occur; incompatible with acids, bases and oxidizing agents;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T089-a
