Direct Current Voltage Rating In Volts:

28.0

Installation Design:

Portable

Controlling Agency:

Lockheed-georgia

Manufacturer Address:

Marietta, georgia

Power Source:

Dc

Identifying Number:

Model no. C-130

Direct Current Usage:

Required

Equipment Name:

Propeller electric system

Special Equipment Simulated:

System

Panel/similar Segment Quantity:

1

Component/item Functioning Presentation Method:

Components demonstrated through mockups

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T356-b
