Installation Design:

Portable

Controlling Agency:

The boeing company

Battery Voltage Rating In Volts:

1.5

Manufacturer Address:

Seattle, washington

Power Source:

Battery

Identifying Number:

Model no. 135a

Battery Usage:

Required

Equipment Name:

Main landing gear lock mechanism

Special Equipment Simulated:

System

Component/item Functioning Presentation Method:

Sshown on overhead projector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T356-b
