Frequency In Hertz:

60.0

Accessory Components And Quantity:

Data case, trainer publications; external cargo slings; hydraulic power cart; observation windows; seat, safety belt and hardness; trainer control panel

Installation Design:

Fixed

Ac Operating Voltage Rating In Volts:

220.0

Power Source:

Ac

Alternating Current Usage:

Required

Panel/similar Segment Quantity:

2

System Simulated:

Engine control; electrical; flight control; hydraulic; instruments; lubrication; pilot; power plant; rotor; transmission; warning and caution

Aircraft Designator:

Uhin helicopter

Phase:

Three

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T356-c
