## NSN 6910-00-252-9536

Aircraft Systems Training Aid - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6910-00-252-9536

Frequency In Hertz:
60.0
Accessory Components And Quantity:
Data case, trainer publications; external cargo slings; hydraulic power cart; observation windows; seat, safety belt and hardness; trainer
control panel
Installation Design:
Fixed
Ac Operating Voltage Rating In Volts:
220.0
Power Source:
Ac
Alternating Current Usage:
Required
Panel/similar Segment Quantity:
2
System Simulated:
Engine control; electrical; flight control; hydraulic; instruments; lubrication; pilot; power plant; rotor; transmission; warning and caution
Aircraft Designator:
Uhin helicopter
Phase:
Three
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T356-c
