Frequency In Hertz:

60.0

Installation Design:

Portable

Controlling Agency:

Usaf

Ac Operating Voltage Rating In Volts:

230.0

Power Source:

Ac

Alternating Current Usage:

Optional

Equipment Name:

Fundamental rotating electric machine demonstrator

Special Equipment Simulated:

System

Phase:

Single

Reference Number Differentiating Characteristics:

Training aid, aircraft electrical system

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T356-b
