Carrying Case:

Provided

Vent:

Included

Body Type:

Noninflatable

Furnished Items And Quantity:

Heart-lung resuscitation visual indicating device 1 - outer garments 1 set

Size Designation:

Adult

Sex Designation:

Male

Movable Head/articulated Jaw:

Included

Unconscious Breastbone Reaction:

Included

Attachment To Simulate Carotid Pulse Pressure:

Included

Product Name:

Manikin resuscitation training plastic adult male

Exterior Container Weight:

65.00 pounds

Exterior Container Cubic Measure:

5.657 cubic feet

Exterior Container Quantity:

1

Special Features:

Broken femur simulation for splinting and traction training, bleeding gun shot wound in the leg; impaled object in the lower abdomen with bleeding, contracted and dilated pupil simulation; penetrating arm wound simulation for pressure application bleeding control training; removable head section; articulation at the shoulders elbows hips and knees; torso separable at waist for transport; w/two carrying bags

Material:

Plastic

Unit Of Issue Cube:

5.658 cubic feet

Supplementary Features:

For training personnel in resuscitation method, bleeding control, and the application of leg splints or traction

Unit Of Issue Weight:

65.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T356-m
