Functional Description:

Provides tracking response, attitude sensing and aircraft weapon system monitoring and communication of aircraft related information to other system equipment

General Description:

Requirements: acceleration 2.5g to +8.5g, air speed 100 ft./sec. To 1.6 imn, roll rate 0/sec. To 360/sec., altitude 5000 ft. To 55, 000 ft. Agc; operatting power ac, 115v; 400hz, single phase, 2amp, 28vdc, 5amp.; dimension 144.30 l, 5 in. Dia.; weight 160 lb. Max

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
