Major Components:

M85 laser transmitter, detector belt system, combat vehicle kill indicator, mine effects simulator receiver, blank firing adapters, global positioning system/mission control station antenna, hull-to-turret transmitter, cables, console, battery box, remote display assembly, main gun/coax machine gun transmitter, coax machine gun microphone, radio control device and man worn detection devices

End Application:

Simulated area weapons effects (sawe) radio frequency (rf) multiple integrated laser engagement systems (miles) ii

Special Features:

Item is used on the m60 a1/a3 tank

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T01200
