**Ac Voltage Rating:**

115.0 volts

**Frequency Rating:**

60.0 hertz

**Accessory Component Quantity:**

1 and 1

**Furnished Items:**

Table, control unit

**System For Which Designed:**

Electronic

**Accessory Controlling Agency:**

Navy special devices center

**Accessory Identifying Number:**

15-k-5-a model no. Or 15-k-5-b model no.

**Output Signal:**

Synthetic electrical

**Operating Control Method:**

Instructor

**Phase:**

Single

**Special Features:**

One to sixteen tables can be driven synchronously by one control unit, course can be set in any direction

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T222-a
