Frequency In Hertz:

400.0

Installation Design:

Portable

Ac Operating Voltage Rating In Volts:

115.0

Power Source:

Ac

Training Phase:

Illustration

Product Name:

Trainer, air conditioning system

Phase:

Single

Special Features:

1trainer provides an illuminated schematic display of the air vehicle bleed air, draw through air, forced air and air pressurization subsystems; material, aluminum frame extrusions, plywood; dimensions: 72 in.H, 230 in. L, 48 in.D, 2000lbs max.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T356-a
