**Frequency In Hertz:**

400.0

**Installation Design:**

Portable

**Ac Operating Voltage Rating In Volts:**

115.0

**Power Source:**

Ac

**Training Phase:**

Illustration

**Product Name:**

Trainer, air conditioning system

**Phase:**

Single

**Special Features:**

1trainer provides an illuminated schematic display of the air vehicle bleed air, draw through air, forced air and air pressurization subsystems; material, aluminum frame extrusions, plywood; dimensions: 72 in.H, 230 in. L, 48 in.D, 2000lbs max.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T356-a
