End Application:

6930-01-018-8272/73, t37b/t38a aircraft flight simulator trainer, types a/f37a-t50/t51

General Description:

Used on the smk-87/f37a-t visual flight simulator, 6930-01-051-7476, which uses a display and optical system to present an out-the-front window view of typical visual conditions encountered in operation of the t37 and t38 acfts; provides instrument-related training in a variety of maneuvers that include taxi-ing, take offs and landings, missed approaches and the transition from instrument to visual flight conditions
