Overall Length:

5.750 inches

Overall Height:

4.125 inches

Overall Width:

6.500 inches

End Application:

F-16 simulated aircraft maintenance trainer

Usage Design:

Panel, manual trim

Special Features:

Indicator type, trim position; the panel simulation shall realistically duplicate the operational equipment visually and tactually; operating temp, 59 to 86 f; rh 20 per cent to 90 percent; altitude, sea level to 5, 300 feet

Functional Description:

For use on aircraft training devices only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T122-b
