Overall Length:

3.250 inches

Overall Height:

3.250 inches

Overall Width:

7.000 inches

Direct Current Voltage Rating In Volts:

28.0

Installation Design:

Fixed

Power Source:

Dc

Direct Current Usage:

Required

Panel/similar Segment Quantity:

1

Component/item Functioning Presentation Method:

Item shall simulate in appearance feel and performance the f-16 aircraft version of an automatic pressure standby, servo controlled altimeter

Special Features:

Dialface-round; using a pointer and counter presents indications of simulated aaltitude continuously in increments of 20 ft; numerals read 0 to 9, 0 at 12 o'clock; numerals and increment markings are white on black bckgd; counter is 5-digit w/enlarged hundreds place, fixed at 0 in tens and ones places; also has a 4-digit barometric counter, registering values in millibars, controlled by knob located on lower left of bezel; item is controlled by dual speed d.C. Resolver servo; has a failure warning flag w/letters-pneu-, for operation in power-off mode, black letters on flourescent yellow bkgd

Relationship To Similar Equipment:

Similar to automatic pressure standby servo controlled altimeter, type aau-37/a, bendix p/n 3252022-0201

Fsc Application Data:

F-16 aircraft operational flight trainer, type a/f37a-t63

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T356-b
