End Application:

Simulated area weapons effects (sawe) radio frequency (rf) multiple integrated laser engagement systems (miles) ii

General Description:

The protective mask interface (pmi) device installs on the m40 protective mask. The pmi does not degrade the protection afforded the soldier by the mask. The pmi is a sealed, self-contained unit that contains a breathing sensor and a low frequency transmitter. Simulates realistic conditions of a chemical weapons attack

Shelf Life:

N/a
