End Application:

A-10 aircraft

Installation Design:

Fixed

Ac Operating Voltage Rating In Volts:

120.0

Power Source:

Ac

Training Phase:

Initial

Equipment Name:

Hands on throttle and stick (hotas) trainer

Product Name:

A-10 hotas trainer

Functional Classification:

LI-101

Special Features:

Floor mounted 72 x 72in; 850lbs

Functional Description:

A-10c precision-engagement functionality trainer meant for initial a-10c pilot conversion and training

Entry Date:

09-12-16

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T356-a
