Major Components:

Radio, prtsl 1, data commo interface (dci) assembly 1, vehicle radio interface cable (red tag) 1, vehicle detector device (vdd) power cable (green tagged) 1, vehicle prtls radio housing tube 1.

Product Name:

Precision real time location system (prtls), vehicle display detector (vdd).

Special Features:

Dvc: 71-37/2

Functional Description:

Performs all real time processing necessary to monitor and collect individual player positions. Provides a radio gps tracking and player communication system for dismounted soldiers or any other ground based system for which there is no tactical engagement system (tes).

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T01200
