Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Accessory Component Quantity:

1 and 1 and 1 and 1

Furnished Items:

Master unit; target signal unit; six target generator; six target power supply

System For Which Designed:

Electronic

Accessory Controlling Agency:

Fada radio and electric co; reflectone corp

Accessory Identifying Number:

1 type no. And 2 type no. And 3 type no. And 4 type no.

Output Signal:

Synthetic radar signal

Operating Control Method:

Instructor

Phase:

Single

Reference Number Differentiating Characteristics:

6 target units

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T222-a
