Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

End Application:

Device no. 15-j-1-c

System For Which Designed:

Electromechanical

Output Signal:

Synchronizing target motion to own ship motion

Operating Control Method:

Instructor

Usage Design:

Combines the target motion to the own ship motion

Phase:

Single

Specification Or Standard:

File no. 15-j-4-u

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T222-a
