End Application:

Electronic imaging system, oo-alc (hill afb) fabricated

Power Source:

External

Input Intelligence Type:

Digital

Intelligence Input Method:

Electrical

Output Intelligence Type:

Digital

Special Features:

Consists of power mac 7100/66; 24mb ram; 250mb hard drive; 1mb vram-will support a 13-17 in. Monitor with 16 bit color (32, 768 colors); apple extended keyboard ii; apple mouse; telebit 2500 modem; remote/wake up cable; farallon starconnector en; power director (power plate with line filter); this is referred to as a digital process system (dps); this is a multimedia item for authorized users on ta 629aaoo only

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30800
