Alternating Current Voltage Rating In Volts:

110.0 and 220.0

End Application:

984 propulsion system

Power Source:

External

Intelligence Input Method:

Electrical

Special Features:

Panelmate plus ii w/ motorola 68000 microprocessor, .41mm monitor; commrate selectable 300 to 19, 200 baud; battery back-up size aa, 3.4v

Frequency In Hertz:

50.0 and 60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A30800
