**Alternating Current Voltage Rating In Volts:**

155.0

**Power Source:**

External

**Features Provided:**

Ruggedized

**Product Name:**

Portable reprogramming station, lantirn

**Phase:**

Single

**Special Features:**

Consists of: computer, integrated display, and programming drawer enclosed in a portable rack carrying case; dimensions are: length 20 inches, width 20 inches, height 11 inches; weight 74 lbs

**Frequency In Hertz:**

60.0

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fiiig:**

A30800
