Overall Length:

45.000 inches

Overall Height:

31.000 inches

Overall Width:

10.650 inches

End Application:

Programmable logic controller er number 1

Unit Design:

Panel mounted

Product Name:

Computer subassembly

Special Features:

Designed for 5 amp maximum power draw at 120 vac; door hinged on the left side; enclosure with door open is 47 inches from the bulkhead

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
