Product Name:

A56270 tactical exploitation group-remote workstation (teg-rws)

Special Features:

The teg-rws is a team-portable system that provides an imagery exploitation capability to magtf command elements (ce) and major subordinate units that do not require full tactical exploitation group-main (teg-m) support. The teg-rws is capable of receiving, storing, exploiting, and disseminating pre-processed imagery only. Its digital products are disseminated electronically throughout the command, control, communication, computers, and intelligence (c4i) infrastructure.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
