End Application:

Afsatcom

General Description:

Capabilities-4 accumulators, 16 levels programmable priority, direct memory access, power monitor and automatic re-start, operating power requirements-ac, 115 volts, 47-440 hz, single phase, 10.300 in. W, 7.800 in. H, 21.100 in. Deep, weighs 65 lbs, shelf mounted, 16384-16 bit memory

Fsc Application Data:

Digital computer

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
