General Description:

Matl copper clad polyimide film per specification 6009395, 1 oz copper, type 1 a1-1-2, insulation resistance 100 megohms min, capacitance 5.0 to 8.0 pf per in. On 0.015 in. Lines, must be capable of withstanding 10-180 degrees bends around a 0.750 diameter rod except at termination area, impedance from single circuit line to shield shall be 30 porm 5 ohms as measured with time domain reflectometer

Fsc Application Data:

Cpu to dmcm, an/avq-26, f4e, rf4c acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
