End Application:

4920-01-342-4734

Unit Design:

Rack mounted

Criticality Code Justification:

Feat

Interface Type:

ieee 488

Special Features:

2self-contained power source; intelligence input method-electrical; input/output intelligence type-digital; 32 kb ram; modified commercial off the shelf unit; ground support equip. For f-16 aircraft analog test station; electrostatic discharge sensitive

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A519j0
