Overall Width:

19.000 inches

End Application:

E3 mission simulator

Unit Design:

Rack mounted

Product Name:

Dac system 16 channel

Memory Size:

16.0 megabytes

Special Features:

Digital audio communication system, base platform; 4u-19" rackmount chassis; pent/233 cpu; pci/isa backplane: 16mb ram; fixed hard drive; ethernet, cell/host interface, 10/100mbs & dis interface, 10/100mbs; 8 channel, 80mhz waveform synthesizer master & 8 channel 80mhz waveform synthesizer, slave (p/n's c208-b-m & c208-b-s); 2 8 channel digital input/output boards (card 1 and card 2 - p/n's c404-a-1 and c404-a-2)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiiig:

A519j0
