Component Type And Quantity:

1 module

Product Name:

Single slot cpu module

Special Features:

Processor speed- 25megahertz; 80386ex type processor; discrete input & output points = 2.048; three built in serial ports; 1, 280 bits of discrete global memory; 4, 096 bits internal coils & 256 bits output (temp) coils; ram & flash type memory storage; battery backed clock; shift registers; timers/counters > 2, 000; operating temp 0 to 60 degrees

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A51110
