**End Application:**

Elevator control panel

**Unit Design:**

Panel mounted

**Product Name:**

Controller,  plc

**Memory Size:**

750.0 kilobytes

**Data Storage Capacity:**

1500.00 kilobytes

**Special Features:**

Processor for a controllogix controller;  750k nonvolatile memory;  750k battery backed static ram;  a logix5555 processor module will not work without a memory expansion sub-module installed.

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A519j0
