Component Type And Quantity:

1 module

Product Name:

Ni 9265 4-channel 20 ma, 100 ks/s/ch, 16-bit, current ao module

Special Features:

0-20 ma output range, 16-bit resolution; ope-loop detection with interrupt, 0.0 ma power-on; hot swappable operation; 4 analog outputs, 100 k/s/s, simultaneously updated; -40 to +70 degree c operating range; nist-traceable calibration

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A511I0
