Overall Length:

9.500 inches

Overall Height:

6.800 inches

Overall Width:

0.950 inches

End Application:

Psax 1250, psax 2300 or psax 4500 chassis

Usage Design:

Operates in no-load sharing, primary/standby mode; provides processing, switching and storage functions

Component Type And Quantity:

3 connector

Special Features:

Risc-based microprocessor; 512mb compact flash system disk; 512mb dram; (2) rj-45 connectors labelled "ethernet 1" and "ethernet 2"; (1) rj-12 connector labelled "console"

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
