General Description:

Logic card, for terminating twisted pair signal lines, 270 ohms to pos 5 v and 330 ohms to pins in 24 circuits 330 ohms to pins in 6 circuits, propagation time delay, high to low switching 8 nsecs typ, low to high switching 12 nsecs typ, 4.75 to 5.25 vdc power required, 0.495 amps max, 2.598 w max, 80 pin card, 4.5 in. W. 4.1 in. H. 0.35 in. Thk, operating temp range 50 to 105 degrees f, copper-clad laminated plastic material

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
