Special Features:

For test program development subsystem (cse) milstar; a high capacity, rack mounted disk drive unit w/recording density to provide a formatted capacity of 456 mbytes; peak transfer rate of 2.2 mb/s, avg seek time of 28 msec; 7 media surfaces, 2496 tracks per surface, 51 sectors per track, 512 bytes per sector, and a rotational speed of 3600 rpms; cognizant service: air force

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505e0
